FTPA CERTIFICATE

First Time Production Approval

This is to certify that

SeAh Besteel Corporation
522, Oehang-ro, Gunsan-si,
Jeollabuk-do 573-711,
Korea

is approved to manufacture and supply **fold forged**

Crankshaft Material
M56 & M60.6_37 & M60.6_42

for Winterthur Gas & Diesel Ltd. (WinGD) 2-stroke engines with a bore size **equal to or smaller than 96cm** and in accordance with WinGD instructions and additional data,
design group 3106 / 3109

This certificate is valid for 3 years from the date of approval.
After 3 years a new certificate will be consigned if no quality problems have been reported. This approval may be withdrawn by WinGD without further notice if quality issues justify it. Furthermore, this approval is subject to the process defined in the MIP (manufacturing and inspection procedure) with document number ME-MIP-1102-001 Rev. 2 and HIST-TS-SA-U100 Rev. 1.
